?	Counter	0.00%	This counter is ok.
?	Counter	0.00%	This counter is ok.
?	Counter	0.00%	This counter is ok.

Close

EEPROM

Refresh detected printers list

1. Shutdown the printer and restart your computer.
2. Make sure that your USB cable is of the good quality and try to use another USB port.
3. Disable printer status monitor via printing preferences or task manager.
4. Cancel all printer jobs and disable any applications that can communicate with the printer.
5. Start the printer, wait until initialization sequence is finished, then repeat desired operation.

Please, remember, that fatal error isn't related with waste overflow and it could not be reset by software.
